

Acknowledgments Quiz

by Laura King, MA, MFA, ELS

ANSWER KEY

Directions: *Acknowledgments* is the blanket term used to cover the information that follows the body of the article and precedes the references. The Acknowledgment section may contain information on date of acceptance of the manuscript, online publication date, correspondence address, author contributions, study group participants, financial disclosure, funding and support, role of the sponsor, disclaimer, meeting presentation, and other miscellaneous information. In the following examples, indicate in which section of the Acknowledgments the information belongs. Refer to **§2.10** of the *AMA Manual of Style* for guidance.

1. Final revision received May 1, 2019.

Online Publication Ahead of Print

Acceptance Date

Additional Information

ANSWER: Acceptance Date

Editor's Note: *Some journals include the date of the manuscript's acceptance; others include the date of manuscript submission, the date the revision was received, and the date the manuscript was accepted. This is done in the interest of transparency and may be more important in the basic sciences (§2.10.1, Manuscript History: Submission and Acceptance Dates).*

Examples are shown below:

Submitted for Publication: December 2, 2018; accepted February 11, 2019.

Accepted for Publication: September 15, 2018.

2. The corresponding author can be contacted at: Robert Smith, MD, American Medical Association, AMA Plaza, 330 N Wabash Ave, Chicago, IL 60611-5885.

Additional Contributions

Additional Information

Corresponding Author

ANSWER: Corresponding Author

Editor's Note: *Contact information for the corresponding author (street address, if possible, with zip or postal code, and email address) is provided in a footnote. Even if there is only a single author, the full name of the person should be included. Follow the custom of*

individual countries regarding the placement of the zip or postal code. Note: For most content in the JAMA Network journals, this information is provided on the first page of the print or PDF version of the article and at the beginning of Article Information below the online version (§2.10.7, Corresponding Author Contact Information).

Examples are shown below:

Corresponding Author: John H. Alexander, MD, MS, Box 3300, Duke University Medical Center, Durham, NC 27715 (john.h.alexander@duke.edu).

Corresponding Author: Patrick J. Gullane, MB, University Health Network, University of Toronto, 200 Elizabeth St, Ste 8N- 800, Toronto, ON M5G 2C4, Canada (patrick.gullane@uhn.on.ca).

Corresponding Author: Christoph Kniestedt, MD, Department of Ophthalmology, Cantonal Hospital Winterthur, Brauerstrasse 15, 8400 Winterthur, Switzerland (research@kniestedt.ch).

Corresponding Author: Tomoyuki Kawada, MD, PhD, Department of Hygiene and Public Health, Nippon Medical School, 1- 1- 5 Sendagi, Bunkyo-Ku, Tokyo 113- 8602, Japan (kawada@nms.ac.jp).

Corresponding Author: N. J. Hall, MD, Department of Pediatric Surgery, Institute of Child Health, 30 Guilford St, London WC1N 1EH, England (n.hall@ich.ucl.ac.uk).

Corresponding Author: Jacqueline C. M. Witteman, PhD, Department of Epidemiology and Biostatistics, Erasmus Medical Center, PO Box 1738, 3000 DR Rotterdam, the Netherlands (j.witteman@erasmusmc.nl).

Although traditionally only a single author has been allowed to be designated as corresponding author, the JAMA Network journals now allow a maximum of 2 corresponding authors on a published article—with justification—provided that only 1 person be responsible for all communications during and after publication. This person will be listed first.

For authors from the same institution:

Corresponding Authors: Jie Qiao, MD, PhD (jie.qiao@263.net), and Tianpei Hong, MD, PhD (tpho66@bjmu.edu.cn), Peking University Third Hospital, 49 N Garden Rd, Haidian District, Beijing 100191, China.

For authors from the same institution but different departments:

Corresponding Authors: Jie Qiao, MD, PhD, Center of Reproductive Medicine (jie.qiao@263.net), and Tianpei Hong, MD, PhD, Department of Endocrinology and Metabolism (tpho66@bjmu.edu.cn), Peking University Third Hospital, 49 N Garden Rd, Haidian District, Beijing 100191, China.

For authors from different institutions:

Corresponding Authors: Linhong Wang, PhD, National Center for Chronic Non-communicable Diseases Control and Prevention, Chinese Center for Disease Control and Prevention, Beijing 100050, China (linhong@chinawch.org.cn); Yonghua Hu, MD,

Department of Epidemiology and Biostatistics, School of Public Health, Peking University, Beijing 100191, China (yhhu@bjmu.edu.cn).

In the print or PDF version, for smaller items with signature blocks rather than bylines (eg, letters to the editor, book reviews), the signature block shows the authors' complete names and degrees only. In footnotes that follow the signature block, the Author Affiliation footnote indicates the authors' affiliations and the Corresponding Author footnote provides the complete name and address (including email address) of the corresponding author.

Signature block:

John C. Newman, MD, PhD

Michael A. Steinman, MD

Author Affiliations: Division of Geriatrics, University of California, San Francisco.

3. Dr Jones had full access to all the data in the study and takes responsibility for the integrity of the data and the accuracy of the data analysis.

Additional Contributions

Additional Information

Author Contributions

ANSWER: Author Contributions

Editor's Note: Editors may ask authors to describe what each author contributed to the work, and the list of contributions may be published at the editor's discretion. This is done in all JAMA Network journals. The JAMA Network journals require authors of manuscripts reporting original research and reviews to provide an "access to data" statement. If such a statement is provided, it is given under the head Author Contributions, before the other contributions as below (**§2.10.8, Author Contributions**):

Author Contributions: Drs Hartnick and Raol had full access to all the data in the study and take responsibility for the integrity of the data and the accuracy of the data analysis.

Study concept and design: De Guzman, Ballif, Hartnick.

Acquisition, analysis, or interpretation of data: All authors.

Drafting of the manuscript: De Guzman, Hartnick, Raol.

Critical revision of the manuscript for important intellectual content: De Guzman, Ballif, Hartnick, Raol.

Statistical analysis: Maurer, Hartnick, Raol.

Administrative, technical, or material support: De Guzman, Ballif, Hartnick, Raol.

Study supervision: Hartnick.

4. Merck provided the study drug.

Financial Disclosure

Funding/Support

Role of the Sponsor

ANSWER: Funding/Support

Editor's Note: *The JAMA Network journals require each author to provide detailed information regarding all financial and material support for the research and work, including but not limited to grant support, funding sources, and provision of equipment and supplies. All financial and material support for the research and work should be clearly and completely identified in the Acknowledgment section. Grant or contract numbers should be included whenever possible. The complete name of the funding institution or agency should be given. If individual authors were the recipients of funds, their names should be listed parenthetically (§2.10.10, Funding/Support).*

Examples are shown below:

Funding/Support: This study was supported in part by grant CA34988 from the National Cancer Institute, National Institutes of Health, and a teaching and research scholarship from the American College of Physicians (Dr Fischl).

Funding/Support: This study was supported by the Gladstone Institute of Virology and Immunology Center for AIDS Research Evaluation and Allocation Committee, University of California, San Francisco; grant K23EY019071 from the National Institutes of Health, National Eye Institute; and That Man May See, the Littlefield Trust, the Peierls Foundation, and the Doris Duke Charitable Foundation through a grant supporting the Doris Duke International Clinical Research Fellows Program at the University of California, San Francisco. Mr Yen is a Doris Duke International Clinical Research Fellow.

Funding/Support: This study was supported by grants 81170881 and U1201221 from the National Science Foundation of China, grant 2010CB529904 from the national 973 Program, Project 984 of Sun Yat- Sen University, and fundamental research funds of the State Key Laboratory of Ophthalmology (Dr Zhang).

Funding/Support: Funding for this study was provided by grant 5 U18 HS011885 from the Agency for Healthcare Research and Quality and through subcontracts with the Utah Department of Health (contract 026429) and the Missouri Department of Health and Senior Services (contract AOC02380132).

Funding/Support: This study was supported by Merck and Co and Bayer Healthcare Diagnostics Division.

Funding/Support: Alefacept was provided to the patients at no cost through a Biogen Idec patient assistance program.

5. The views expressed in this article are solely the opinions of the authors and do not necessarily reflect the official policies of the US Department of Health and Human Services.

Author Contributions

Additional Information

Disclaimer

ANSWER: Disclaimer

Editor's Note: *A note of disclaimer is used to separate the views of the authors from those of employers, funding agencies, organizations, or others. Editors should generally retain the author's phrasing, especially if such phrasing is required by the policy of the entity mentioned (§2.10.13, Disclaimer).*

Examples are shown below:

Disclaimer: The views expressed here are those of the authors and do not necessarily reflect the position or policy of the US Department of Veterans Affairs or the US government.

Disclaimer: The opinions expressed herein are only those of the authors. They do not represent the official views of the government of India, St Michael's Hospital, the University of Toronto, or the study sponsors.

Disclaimer: Opinions in this article should not be interpreted as the official position of the International Committee of the Red Cross.

Disclaimer: The opinions expressed herein are those of the authors and do not necessarily reflect the views of the Indian Health Service.

If the byline of a research manuscript includes an editor of the journal, the following type of disclaimer is useful.

Disclaimer: Dr Bressler is the editor of *JAMA Ophthalmology*. He was not involved in the editorial evaluation of or decision to accept this article for publication.

6. The Commonwealth Fund funded and conducted the survey but had no role in the design and conduct of the study; analysis or interpretation of data; or manuscript preparation, review, or approval.

Disclaimer

Funding/Support

Role of the Sponsor

ANSWER: Role of the Sponsor

Editor's Note: *The specific role of the funding organization or sponsor in each of the following should be specified: design and conduct of the study; collection, management, analysis, and interpretation of the data; preparation, review, and approval of the manuscript; and decision to submit the manuscript for publication. For articles that do not include original research, "design and conduct of the study and collection, management, analysis, and interpretation of the data" is omitted (§2.10.11, Role of the Funders/Sponsors).*

Examples are shown below:

Role of the Funder/Sponsor: The National Institutes of Health had no role in the design and conduct of the study; the collection, management, analysis, or interpretation of the data; the preparation, review, or approval of the manuscript; and the decision to submit the manuscript for publication.

Role of the Funders/Sponsors: Staff from Merck assisted in monitoring the progress and conduct of the A to Z trial. Bayer Healthcare provided reagents for B-type natriuretic

peptide testing. The sponsors were not involved in the biomarker testing, analysis, or interpretation of the data or in preparation of the manuscript for this substudy. Medical specialists employed by the sponsors reviewed the manuscript before submission.

7. This article was corrected on April 25, 2014, to fix inadvertently transposed data in Table 2.

Additional Information

Correction

Online-Only Material

ANSWER: Correction

Editor's Note: *If an article has been corrected since publication (in print and/or online), this is mentioned in the Acknowledgment section that includes the date the error was fixed and a description of the error. Note: These notes do not replace the need for a published erratum (§2.10.4, Corrections).*

Examples are shown below:

Correction: This article was corrected on May 20, 2014, to fix a typographical error in the abstract and on July 3, 2014, to fix a numerical error in the Secondary Outcomes subsection in the Results section.

Correction: This article was corrected on February 28, 2019, to correct an omission of 2 reference citations and to add discussion of these related studies to the article introduction.

Correction: This article was corrected on January 13, 2019, to fix a numerical error in the first column of Table 2.

8. This study was presented orally at the 72nd American Diabetes Association Scientific Symposium; June 11, 2012; Philadelphia, Pennsylvania.

Additional Information

Online Publication Ahead of Print

Meeting Presentation

ANSWER: Meeting Presentation

Editor's Note: *The following formats are used for material that has been read or exhibited at a professional meeting. The original spelling and capitalization of the meeting name should be retained. Provide the exact date and location of the meeting (§2.10.14, Meeting Presentation).*

Examples are shown below:

Meeting Presentation: This study was presented at the Society of Critical Care Medicine's 48th Critical Care Congress; February 18, 2019; San Diego, California.

Meeting Presentation: This work was presented at the annual meeting of the Association for Research in Vision and Ophthalmology; May 5, 2013; Seattle, Washington; at the annual meeting of the American Society of Retina Specialists; August 25, 2013; Toronto, Canada; and at the 47th Annual Meeting of the Microbiology and Immunology Group; November 15, 2013; New Orleans, Louisiana.

Meeting Presentation: This study was presented at the Annual Heart Rhythm Society Scientific Sessions; May 10, 2018; Boston, Massachusetts.

- This work is dedicated to the memory of Victor A. McKusick, MD, and Thomas H. Roderick, MD, who loved genetics and their home state of Maine.

Additional Information

Additional Contributions

Funding/Support

ANSWER: Additional Information

Editor's Note: *Occasionally, other types of information may be provided in the Acknowledgment section. However, permission or credit for reproduction of a figure or a table, even if modified, should be given in the figure legend or the table footnote, not in the Acknowledgment section (§2.10.18, Additional Information [Miscellaneous Acknowledgments]).*

Examples are shown below:

Additional Information: This is report 54 in a series on chronic disease in former college students.

Additional Information: These documents are also available online (<http://www.library.ucsf.edu/tobacco>).

Additional Information: Additional studies are available from the UK Cochrane Centre, National Health Service Research and Development Programme, Summertown Pavillion, Middleway, Oxford OX2 7LG, England (ichalmers@cochrane.co.uk).

- A complete list of the members of the French Study Group of Cutaneous Drug Adverse Reactions was published previously (*JAMA Dermatol.* 2013;149[5]:565-569).

Additional Contributions

Additional Information

Group Information

ANSWER: Group Information

Editor's Note: *If the study was performed by a group of persons, the names of the participants may be listed in the Acknowledgment section. It is important to separately identify and tag members of the group who are authors, members of the group who are nonauthor collaborators, and other members of the group (§2.10.12, Group Information [Including List of Participants in a Group]).*

- This article (doi:10.1001/jamaoncol.2019.1838) was published online on August 1, 2019.

Acceptance Date

Additional Information

Published Online

ANSWER: Published Online

Editor's Note: If an article was published online first or online only, the date it was published online, along with the DOI, a unique character string that identifies an object on a digital network, should follow the acceptance date footnote (or, if the journal does not publish the acceptance date, it should be placed first) (§2.10.2, Publication Online First or Online Only).

Examples are shown below:

Published Online: March 4, 2019. doi:10.1001/jamapediatrics.2019.0025

Published Online: March 7, 2019. doi:10.1001/jama.2019.1608

12. This article is distributed under the terms of the CC-BY License.

Additional Information

License Type

Open Access

ANSWER: Open Access

Editor's Note: If an article is published under an open access license, that information can be displayed as follows (§2.10.3, Information on Open Access).

Open Access: This article is published under the JN-OA license and is free to read on the day of publication.

Open Access: This is an open access article distributed under the terms of the CC-BY License. ©2018 Sestak I et al. *JAMA Oncology*.
